# SHAIK YASIN

Shaikyasin09082002@gmail.com | +91 7997482578 | Vijayawada, Andhra Pradesh | linkedin.com/in/yasin-shaik-116674286 | github.com/YASINSHAIK-CODER

## SUMMARY:

Enthusiastic Java Backend Developer with hands-on experience building scalable REST APIs and full-stack applications. Demonstrated expertise in Spring Boot, Spring Data JPA, and MySQL through 3 production-ready projects including an AI-powered MCQ quiz platform serving multiple users. Strong foundation in microservices architecture, database design, and authentication mechanisms. Seeking a Junior Backend Developer role to contribute to enterprise systems while leveraging core Java competencies and collaborative problem-solving skills.

## SKILLS:

**Core Java:** Java, Spring Boot, Spring Data JPA, REST APIs, Microservices, MySQL, Hibernate

**Backend Technologies:** Object-Oriented Programming (OOP), Collections Framework, Multithreading, Exception Handling, String Manipulation, SOLID Principles, Layered Architecture, MVC & DAO Patterns

**Database Technologies:** MySQL Workbench, MySQL, H2 Database, JDBC, Prepared Statements, Query Optimization, Connection Management

**Web Technologies:** HTML5, CSS3, JavaScript, Thyme leaf

**Tools & Version Control:** Eclipse IDE, GitHub, Git, Maven, Postman, MySQL Workbench

**Additional Skills:** CORS Configuration, Authentication & Authorization, OTP-based Authentication, AI API Integration, Email Service Integration

## PROJECTS:

### 1.AI-Powered MCQ Generator and Online Quiz Management System | github.com/YASINSHAIK-CODER/AI-MCQ-QUIZ-GENERATER

- Developed an AI-powered web application using Spring Boot handling 100+ concurrent quiz sessions with sub-200 MS API response times.
- Integrated Open AI/Hugging Face APIs for automatic MCQ generation, reducing manual question creation time by ~60%.
- Implemented OTP-based authentication via email with a 99.5% delivery success rate and secure token management.
- Built automated quiz evaluation system processing 500+ submissions with instant score calculation.
- Utilized Spring Data JPA, Hibernate, and MySQL (optimized queries with indexing) for efficient data persistence.
- Designed responsive UI using Thyme leaf, HTML5, CSS3, and JavaScript. Version-controlled with Git/GitHub.

### 2.Employee Management System (REST API with Spring Boot) | github.com/YASINSHAIK-CODER/Rest-API-S-

- Designed and implemented 8+ REST endpoints (GET, POST, PUT, PATCH, DELETE) for employee CRUD operations with sub-100ms response times on 10,000+ employee records.
- Optimized database queries using Spring Data JPA query methods (findByName, findByDepartment) reducing N+1 query problems and improving performance by 45%.
- Implemented PUT (full update) & PATCH (partial update) operations with comprehensive input validation and error handling.
- Configured CORS to enable secure communication between frontend (React) and backend, supporting multiple domain requests.
- Structured codebase using layered architecture (Controller → Service → Repository → Entity) following SOLID principles.
- Secured endpoints with basic authentication and role-based access control (RBAC). Created Postman collection with 15+ API test cases documenting all endpoints.

### 3.Student Management System – CRUD Application | github.com/YASINSHAIK-CODER/servelets

- Implemented full CRUD operations (Create, Read, Update, Delete) for 500+ student records using JDBC and MySQL with zero data loss.
- Applied DAO (Data Access Object) pattern and POJO classes to ensure clean separation between business logic and database layers.
- Used Prepared Statements throughout to prevent SQL injection attacks and ensure data security.
- Proper exception handling for SQL Exception and resource management with connection pooling.
- Designed normalized MySQL schema (3NF) with proper indexing on frequently queried columns (student ID, email) improving query speed by 30%.

## EDUCATION:

**Amrita Sai Institute of Science and Technology** — Paritala
B. Tech in Computer Science and Engineering — Jun 2021 - May 2025
- CGPA: 7.1

**Deeksha Junior College** — NandiGama
Intermediate — Jun 2019 - May 2021
- CGPA: 6.6

**Vignan High School** — Visakhapatnam
SSC — Jun 2015 - May 2019
- CGPA: 8.2

## LANGUAGES:

- English • Hindi • Telugu
